SUMMARY

Computer Engineering student with strong foundations in Data Structures and Object-Oriented Programming. Skilled in developing responsive web applications using modern technologies and building modular, scalable solutions. Seeking an entry-level Software Engineering role to apply problem-solving and programming skills.

EXPERIENCE

Client Project – Pawna Camp Booking Jan 2025 – Apr 2025

- Designed and developed a full-stack camping booking website using HTML, CSS, JavaScript, Ajax, PHP and MySQL, enabling online bookings and improving customer experience.
- Built an admin panel with a dashboard to manage bookings, customer reviews, and availability of tents/cottages
- Built a responsive and user friendly UI for seamless browsing across devices.
- Integrated booking forms with session handling and QR-based payment option.
- Ensured smooth data flow with secure backend & database connectivity, optimizing performance and reliability.

PROJECTS

Foodies Haven – Responsive Restaurant Website | HTML, CSS3 5 Sept 2025 – 7 Sept 2025

- Developed a responsive restaurant website using HTML5 and CSS3.
- Designed intuitive navigation, menu sections, and contact form.
- Implemented Flexbox, Grid, and Media Queries for cross-device compatibility.
- Enhanced user experience with a modern UI and structured content layout.
- Project Link : [Foodie's Haven](#)

Luxe – Premium E-Commerce Website | HTML, Tailwind CSS 12 Jan 2026 – 20 Jan 2026

- Developed a responsive e-commerce website with a modern and user-friendly interface.
- Implemented mobile-first navigation, product catalog, and featured products section.
- Designed login and signup pages with authentication-ready forms.
- Built responsive layouts using Tailwind CSS utility classes, ensuring cross-device compatibility and consistent UI..
- Project Link : [Luxe](#)

Disney+ Clone – Responsive Movie Streaming UI | HTML, Tailwind CSS, React.js 17 Feb 2026 – 26 Feb 2026

- Developed a responsive Disney+ clone using React.js and Tailwind CSS with TMDB API integration.
- Implemented dynamic movie fetching, genre-based categorization, and trending content display.
- Built reusable components and custom horizontal scrolling for an enhanced user experience.
- Optimized responsiveness and UI performance across mobile and desktop devices.
- Project Link : [Disney-Clone](#)

EDUCATION

Bachelor of Technology (B.Tech), Computer Engineering

2023 - 2027

Rajarambapu Institute of Technology, Islampur

CGPA: 8.57/10

SKILLS

Technical Skills : Java (Proficient), JDBC, HTML, CSS, React.js, JavaScript, MySQL, UI

Other Tools : Git/Github, Visual Studio Code, Figma, Canva

CS Fundamentals : Data Structures & Algorithms, Object-oriented Programming, Debugging

CERTIFICATION & LEARNINGS

- Certification in Android Development Virtual Internship (Eduskills)
- Certification in Acquiring Data (Level 1 - AI Fundamentals of AI ASCEND) by Accenture
- Certification in Data Science for Beginners by Board Infinity
- Certification in Database Management System by NPTEL
